

Chem-Pack Supplies Australasia

Safety Data Manual

AWW50PK

1. Identification of the substance/mixture and of the company/undertaking

Product Name:	Care Wipes
Product Code:	AWW50PK
Identified use of the product:	Adult Care Wipes
Company Name:	Chem-Pack Supplies Australasia PTY LTD
Address:	1-3/19-21 Northumberland Road Caringbah NSW 2229
Telephone Number:	02 8536 9500
E-mail:	sales@chem-pack.com.au
Emergency Telephone	13 11 26
Date of SDS Preparation:	01/02/2024

2. Hazards Identification

This preparation is not classified as 'Hazardous' according to Directive 1999/45/EC and subsequent amendments.

Signal word: Not applicable

Symbols: Not applicable

Pictograms: Not applicable

Other assigned/identified product hazards: None known

Other hazards which do not result in classification: None known

3. Composition and Information on ingredients

Ingredients:
Spun Laced Non-Woven Fabric
Aqua Water
Chlorphenesin
Propylene Glycol
Polyaminopropyl Biguanide
Hydrocotyle Asiatica Extract

Flower Extract (Honey Suckle)
Benzalkonium Chloride
Polysorbate 20
Aloe Vera
Sodium Citrate
Citric Acid

CAS Number	Not applicable, preparation is mixture
EINECS Number	Not applicable, preparation is mixture

4. First Aid Measures

Eye Contact	Incase of direct contact with eyes, immediately flush eyes with plenty of water. If irritation develops, seek medical advice.
Skin Contact	Not expected to present a skin hazard under normal conditions of use
Ingestion	Not expected to present an ingestion hazard under normal conditions of use
Inhalation	Not considered to present an inhalation hazard under normal conditions of use.
Symptoms and effects both acute and delayed	No hazards which require special first aid measures

5. Fire Fighting Measures

Suitable extinguishing equipment	Any fire extinguishing method is acceptable; water spray/fog, foam, carbon dioxide and dry powder.
Extinguishing equipment NOT to use:	No information available
Special protective equipment and precautions for fire fighters	In the event of a large fire, toxic fumes containing oxides of carbon may be formed, which would necessitate the use of a self-contained breathing apparatus

6. Accidental Release Measure

Personal precautions, protective equipment, and emergency procedures	None anticipated or expected to be required. Avoid direct contact of the impregnating fluid with the eyes.
--	--

Environmental precautions	Do not allow product to reach sewage system
Methods and materials for containment and cleaning up	Absorb any impregnating fluid onto a suitable inert material and collect mechanically with spilled product for subsequent disposal.

7. Storage and Handling

Precautions for safe handling:

Avoid eyes and wounds when using, do not take orally. Do not place the package in heat or over an open flame. Keep out of reach of children to avoid ingestion.

Conditions for safe storage:

Store at room temperature and away from direct sunlight. Storage place should be cool, ventilated and moisture-proof.

8. Exposure controls and personal protection

Personal protective equipment:

None required under normal conditions of use

Engineering controls:

None anticipated or expected to be required.

Environmental exposure controls:

Dispose to general waste.

9. Physical and Chemical Properties

Appearance	Colorless non-woven pre-humidifying product.
pH of impregnating fluid	5-8
Flammability	Nonflammable
Melting Point	Not available
Freezing point	Not available
Flash point of impregnating fluid	<100°C
Flammability	Nonflammable
Upper and lower explosive limits	Not available
Vapor pressure	Not available
Vapor density	Not available
Relative density	Not available

Solubility	Insoluble in water
Partition coefficient	Not available
Auto-ignition temperature	Product is not self-igniting
Decomposition temperature	Not available
Viscosity	Not available

10. Stability and Reactivity

Reactivity	Stable under normal conditions of use
Chemical stability	Stable under normal conditions of use
Possibility of hazardous reactions	None known
Conditions to avoid	None known
Incompatible materials	None known
Hazardous decomposition products	Stable under normal conditions of use

Note: Avoid contact with the following materials: strong oxidant, protein raw materials, and ionic surface activity pills.

11. Toxicological Information

Information on the likely routes of exposure	No information available
Health Hazards Information	None expected during normal conditions of use
The substance may cause irritation to mucous membranes used as damaged skin in the oral cavity	
Depending on the user's constitution, there may be abnormal such as skin rashes	

12. Ecological information

Ecotoxicity	No information available
Persistence and degradability	No information available
Bioaccumulative potential	No information available
Mobility in soil	No information available
Other adverse effects	No information available

13. Disposal Considerations

Dispose Method:

Disposal of waste must comply with local laws, regulations, and relevant provisions

Precautions:

No information available

Disposal Methods to avoid:

Do not flush. Do not dispose of significant quantities of the impregnating fluid into drains and water courses

14. Transportation Information

This preparation is not classified as “Hazardous” for transport purposes.

15. Regulatory Information

This preparation is not classified as ‘Hazardous’ for labelling purposes.

Label for supply: Ingredients

16. Other Information

Issue: 1st February 2024

Review: 1st February 2029
