

# HOW TO FOGO

**Sort food waste right. Every shift, every wing.**

Food scraps go to compost, not landfill.

## 100% Compostable liner only

Only the certified compostable liner lines a FOGO bin. Never a degradable or EPI bag.

## Strip the packaging

Tip food out of its wrapper. The wrapper goes in general waste. Not the green bin.

## Drain the liquid

Pour off soup, gravy and thickened drinks before scraping the rest in.

## No Compostable packaging

Sugarcane & compostable items like coffee cups and cutlery go in general waste. Keeping them out protects a pure, high-value compost.

### Goes in FOGO

- All food scraps — cooked & raw
- Meat, fish, bones & seafood shells
- Fruit, veg, salad, bread, rice & pasta
- Dairy, eggshells & leftovers
- Coffee grounds & loose tea leaves
- Plate scrapings from resident meals
- Certified compostable green liners

### Keep it OUT

- Plastic — wrap, packaging, cling film
- Gloves, PPE, wipes & cleaning cloths
- Degradable, biodegradable & EPI bags
- Black or coloured bin bags
- Compostable cups, plates & cutlery
- Paper towels, cardboard
- Liquids, soups & thickened fluids
- Coffee pods & tea bags
- Nappies, continence & clinical waste
